

Gaby Davis Foundation:

The Gaby Davis Foundation was created in memory and honour of 7 year old Gaby who lost her battle with cancer. Gaby had a wish. Gaby saw the devastating affects a childhood cancer diagnosis can have on a family and wanted to help. Her mission was to help with the paying of bills and medical expenses so the parents could focus on their child rather than the financial burden that comes along with a diagnosis. Completely volunteer run, the Gaby Davis Foundation has helped over 90 families with financial grants and practical support items since its inception in 2007. We are proud to say that 100% of donated funds are directed at helping families affected by childhood cancer in BC.

Our tree reflects Gaby's personality. Gaby loved the colour purple so purple became our charity's colour. We adorn our tree with all things that sparkle just as Gaby shone her way through the lives of those she touched! On the tree are hand decorated photos of some children we have crossed paths with on our journey with childhood cancer. We have put the names on gold stars of all the children that the foundation has helped in the past 9 years. Our tree will sparkle and shine in honour and memory of all the kids who have battled, are battling or will battle cancer. May we be a light in their journey.
